NATIONWIDE PHARMACY STORE STOCKTAKE

Case Study: Retail Inventory – Pharmacy Chain

A large pharmacy chain needed a stocktaking solution to **consolidate all the various stocktaking data** from different stocktaking companies which was causing issues with reporting

RGIS

NATIONWIDE PHARMACY STORE STOCKTAKE

Case Study: Retail Inventory – Pharmacy Chain

A large pharmacy chain that has focused on growth, not in numbers, but stature and quality required the support of RGIS. The estate comprises of over 70 unique pharmacies across the UK, which will continue to grow through a strategic and careful acquisition plan.

REQUIREMENT

The pharmacy chain needed a stocktaking solution to **consolidate the stocktaking data** rather than using multiple pharmacy stocktaking companies, so required RGIS to provide the following:

- Experience within a **pharmacy environment**
- **National coverage**
- **A tailored, customised report** for all branches
- **Financial valuations**
- **Line and category reports**

SOLUTION

The pharmacy chain partnered with RGIS to complete the **pharmacy stocktaking project**, and provided the following:

- All branch managers were contacted to **discuss preparation required** prior to the counts
- **Specific reporting** outcomes were agreed
- All branches were scheduled within a set time frame
- **Accuracy checks** were completed at all branches

RESULTS

The pharmacy chain found by outsourcing the **pharmacy stocktaking project** to RGIS, the following results were achieved:

- There was **fluid reporting** across all branches
- Billing was simplified as it was coming from one source
- **Accuracy levels were increased** across all branches
- Head office had access to the data they required from a **consolidated report**, rather than having to approach individual branches

By partnering with RGIS, the pharmacy chain had **fluid reporting across all branches**, and head office had access to the data they required from a **consolidated report**
