

# PHARMACEUTICAL PRODUCTS DISTRIBUTION CENTRE COUNT

**Case Study:** Warehouse – Pharmaceutical Product Distributor

A pharmaceutical product distributor needed a solution to **count over seven million stock items** within a distribution centre

# PHARMACEUTICAL PRODUCTS DISTRIBUTION CENTRE COUNT

## Case Study: Warehouse – Pharmaceutical Product Distributor

One of the most diversified players in the health sector in Brazil required the support of RGIS. With operations in distribution, specialties and retail, they had to satisfy all audiences: shareholders, industries, pharmacies, hospitals and consumers. The pharmaceutical product distributor has 11 drug distribution centres.

### REQUIREMENT

The pharmaceutical product distributor wanted to have a **full analysis report of a distribution centre**, so required RGIS to provide the following:

- **Pre-inventory count** planning for high levels
- **Count all items** within the distribution centre
- Full count to be **completed within two days**

### SOLUTION

The pharmaceutical product distributor partnered with RGIS to complete the **pharmaceutical distribution centre count project**, and provided the following:

- Support equipment used:
  - Airport model stairs x 10 – counting up to the second level
  - Lifting platforms x 20 – counting up to the seventh level
  - Fork lift trucks x 3 – counting up to the eighth level
  - Fork lift trucks x 2 – counting lower mixed pallets from overhead
- Scheduled teams of RGIS auditors:
  - Three shifts of **133 experienced RGIS auditors**
  - One shift of **70 experienced RGIS auditors**

### RESULTS

The pharmaceutical product distributor found by outsourcing the **pharmaceutical distribution centre count project** to RGIS, the following results were achieved:

- A total of **7,872,778 items** were counted
- Full count of the distribution centre was **completed within the time frame** given by the customer
- The customer now has a **full understanding of all the stock** it has held within the distribution centre

By partnering with RGIS, the pharmaceutical product distributor found that over **seven million items were accurately counted** within the distribution centre **over two days**
