

A photograph of a Sainsbury's supermarket interior. In the foreground, a red sign with white text reads 'Customer service'. Below it, another red sign says 'Self checkout'. The background shows various aisles with shelves stocked with products. A sign for 'Lloyds Pharmacy' is visible. A hanging sign on the right says 'Crystal clear hearing loop'. The ceiling has long fluorescent lights.

## RETAIL STORE BAY LABELLING COMPLIANCE

**Case Study:** Retail Services – Sainsbury's Supermarket

RGIS partnered with Sainsbury's to support with the maintenance of the supermarket chain's **permanent bay labelling** across all of the **store estate**

# RETAIL STORE BAY LABELLING COMPLIANCE

## Case Study: Retail Services – Sainsbury's Supermarket

Sainsbury's, a major nationwide supermarket chain with over 650 main stores and over 700 convenience stores, required the support of RGIS to manage the maintenance of its permanent bay labelling across all of the store estate.

### REQUIREMENT

Sainsbury's chose RGIS to manage the maintenance of their permanent bay labelling across all of their store estate. They required the following:

- The floor plans, that were held centrally, to **accurately reflect the numbering** of the **bay IDs** in their stores
- To allow **space survey** measurements to be taken periodically in each store
- To produce **store specific planograms**, as it was vital that the **bay ID number** was correct

### SOLUTION

RGIS worked with Sainsbury's to provide the following:

- 2-3 **experienced auditors** for 3-4 hours per store, to compare centrally held floor plans to the actual labelling in store
- Any labels which were missing, damaged or in wrong order/placement were quickly identified
- The labels were **repaired and replaced** with new labels to ensure the floor plan was correct to actual bays and numbers within each specific store

### RESULTS

Partnering with RGIS helped Sainsbury's in the following ways:

- To manage all stores **use of space** against centrally held floor plans to ensure consistency and compliance across the estate
- Confirmed that **correct products were procured** at all times
- Ensured **products were ranged and displayed** across the estate in the correct locations

By partnering with RGIS, Sainsbury's ensured the correct products were **re-procured, ranged and displayed** across their estate

### CUSTOMER TESTIMONIAL

"RGIS have delivered a great service in helping us to drive bay labelling ID compliance. The Smartspace space accuracy programme has indicated where we have a need for label implementation, following on from our investment schemes, and RGIS quickly turn around the re-labelling jobs to a consistently accurate standard. As well as driving space accuracy to an industry leading standard, this has also helped us to keep our SSPOG's (Store Specific Planograms) on track."
